AMOXICILLIN CHEWABLE TABLET - ORAL
(a-MOX-i-SIL-in)

COMMON BRAND NAME(S): Amoxicil

USES: Amoxicillin is used to treat a wide variety of bacterial infections. This medication is a penicillin-type antibiotic. It works by stopping the growth of bacteria.

This antibiotic treats only bacterial infections. It will not work for viral infections (such as common cold, flu). Using any antibiotic when it is not needed can cause it to not work for future infections.

Amoxicillin is also used with other medications to treat stomach/intestinal ulcers caused by the bacteria *H. pylori* and to prevent the ulcers from returning.

HOW TO USE: Chew the tablets thoroughly and swallow, followed by a full glass of water (8 ounces or 240 milliliters). Take this medication with or without food as directed by your doctor, usually every 8 or 12 hours. The dosage is based on your medical condition and response to treatment.

Drink plenty of fluids while using this medication unless your doctor tells you otherwise.

For the best effect, take this antibiotic at evenly spaced times. To help you remember, take this medication at the same time(s) every day.

Continue to take this medication until the full prescribed amount is finished, even if symptoms disappear after a few days. Stopping the medication too early may allow bacteria to continue to grow, which may result in a return of the infection.

Tell your doctor if your condition lasts or gets worse.

SIDE EFFECTS: Nausea, vomiting, or diarrhea may occur. If any of these effects last or get worse, tell your doctor or pharmacist promptly.

This medicine may cause temporary staining of the teeth. Proper brushing will usually remove any stains and may prevent them from occurring.

Prescription Summary Report

The screenshot shows a web application interface for generating a Prescription Summary Report. At the top right, there are links for Log Off, Help, Contact Us, and My Profile. The main navigation bar includes Home, Prescriptions (with a dropdown arrow), Benefits & Coverage (with a dropdown arrow), and Pharmacies (with a dropdown arrow). Below the navigation bar, the breadcrumb path is >> Prescriptions > Rx Summary Report. The main heading is 'Rx Summary Report' with a question mark icon. A date range selector is set to 'Last 90 Days'. A checkbox labeled 'Include Prescriptions for Other Family Members I Have Permission to View' is checked. At the bottom of the form, there are two buttons: 'Run Report' and 'Run Large Print Report', separated by the word 'or'. To the right of the form is a 'Quick Links' section with the following links: View Prescriptions, Locate a Pharmacy, Check Drug Pricing, Formulary Search, and Forms.

- To obtain your prescription history, use the tool bar at the top and select “Rx Summary Report” under the Prescription tab
- Enter the date range you would like to view
- Report will display results for you and any other members you have permission to view (if check box is marked)
- To view only prescription history for yourself, uncheck that box
